ABOUT US

Business Bridge Asia (BBA) is a team of successful entrepreneurs, subject matter experts, and former diplomats dedicated to helping small and medium-sized businesses thrive across the Pacific.

Asia and Oceania can be as complex as they are profitable for American companies, and vice versa, but a low-cost, low-profile approach works. Our proven business solutions are customized to the unique needs and financial realities of smaller companies.

We help companies make sales, assess opportunities, solve problems, and connect with trusted local networks via our locally incorporated headquarters in Singapore and the United States, plus resident staff in India, Bangladesh, Vietnam, Thailand, Indonesia, Malaysia, Philippines, Australia, South Korea, Fiji, Vanuatu, and Greater China including Hong Kong.

BBA runs a separate company, Defense Bridge Asia, to support defense, security, and government clients.

WHY BBA?

03

BROAD NETWORK:

BBA has a broad network of contacts throughout the Asia-Pacific region and the US. We can work through our network to answer specific questions and provide linkups with vetted potential partners.

LOCAL EXPERTISE:

BBA's staff have broad experience in both the US and various Asia-Pacific business cultures. We speak the languages, know the people, and help our clients avoid common pitfalls.

ETHICAL FOUNDATION:

BBA was founded on ethical principles. We recognize the sensitivities involved in expanding to new countries, and demonstrate propriety in everything we do.

FLEXIBLE AND AGILE:

BBA's regionally-based team and broad network allows us to adeptly solve problems with tailored approaches, and provide timely answers to critical questions.

VALUE:

We rely on an efficient approach, using a network of partners, minimal overhead costs, and the ability to surge when required. BBA's services cost far less than sourcing in-house.

THE BBA STORY

Business Bridge Asia (BBA) was founded by Bryce Madsen, a Singapore-based American entrepreneur who built a successful business enterprise operating throughout the Asia-Pacific, and Andre Rivier, a former diplomat and Asia-Pacific policy expert turned business executive.

After helping friends expand their businesses in Asia, Bryce and Andre saw unmet demand for consulting services focused on the unique needs of small businesses entering the region. Several existing companies catered to large businesses—with prices to match—but nobody offered smaller enterprises proven strategies to succeed in the Asia-Pacific region without large upfront investments or unnecessary risk exposure.

Bryce and Andre assembled an all-star team of local businessmen, lawyers, accountants, former government officials, and subject matter experts from multiple countries, to include regional expert and assistant professor Randy Johnson, Hong Kong entrepreneur Ian Leung, Thai marketing expert Pam Udomkarn, and many more. BBA has helped clients with services ranging from due diligence to full scale market entry support. We take pride in our work and are passionate about helping small businesses operate on both sides of the Pacific.

CASE STUDY

THAILAND DUE DILIGENCE

Industry

- Energy Technology

Background

- A US-based energy sector technology company secured 9M USD in capital from a apparently reputable Thai investor, but decided to conduct a due diligence investigation
- The company's US-based attorney was unable to investigate adequately in Thailand, so asked BBA for assistance

Solution

- BBA's Thailand based attorney conducted a discreet investigation and discovered the "investor" was actually a sophisticated fraud who had cloned real email addresses

Outcome

- BBA provided results within two days, and the client was able to avoid any loss of funds
- The happy client asked for additional assistance from BBA to find replacement investors in the Asia-Pacific region

CASE STUDY

PHILIPPINES & INDONESIA EXPANSION

Industry

- Freight Forwarding

Background

- A US company wanted to open subsidiary companies in Philippines & Indonesia while bypassing local ownership requirements, i.e. obtaining 100% US ownership
- The company originally approached a traditional consulting firm for assistance, but was unable to achieve their ownership goals

Solution

- BBA partnered with trusted local accountants and attorneys who understood the countries' recently updated foreign investment laws
- BBA's local partners helped the US company appear small, local, and worthy of quick government approval

Outcome

- Using fully legal and transparent means, the US company was able to incorporate with 100% US ownership
- Total costs to the US company were lower than estimated

CASE STUDY

U.S. BUSINESS EXPANSION

Industry

- Facilities Management

Background

- A Singapore-based facilities management company wanted to expand operations to the United States, Canada, and select countries in Latin America
- The company asked for a low-cost approach that would support all requirements without incurring substantial up front payments

Solution

- BBA conducted extensive research to find the right US state for incorporation, cost effective local back office support (payroll, legal, accounting, etc.), prospective employees, and reputable yet low cost subcontractors
- BBA identified local partners in Canada and Panama, conducted research on other prospective Latin American countries, identified and vetted Canadian subcontractors, and registered the company to bid on a contract in Canada

Outcome

- BBA initially advised the client to delay moving forward due to the economic effects of COVID-19 on the company's prospective clients, but remain prepared for rapid implementation
- As soon as the situation improved, BBA helped the client bid on a large U.S. and Canadian tender for a European company the client already supported in Asia

CASE STUDY

EYEWEAR CO. INTERNATIONAL MARKET EXPANSION

Industry

- Eyewear Distribution

Background

- Thailand-based company with exclusive distribution rights within ASEAN for several high-end eyewear brands, but limited sales representation abroad
- Just 22% of company's total annual sales from outside Thailand from two hero brands; difficult to retain or grow smaller customers after initial sales

Solution

- Hired full-time Malaysia-based sales rep after extensive vetting
- Structured a growth-focused compensation package that reduced tax issues and back-office work
- Started with less-complicated brands to exercise sales, logistics, and billing system
- Flew international rep back to Thailand each quarter to maintain close ties

Outcome

- Increased overseas sales to 35% of annual revenue within first year and doubled customer base
- Leveraged increased volume to renegotiate better logistics costs with international shipping provider

CASE STUDY

MANUFACTURING CO. NEW SALE TO SOUTHEAST ASIAN GOVERNMENT

Industry

- Equipment Manufacturing

Background

- A US manufacturer negotiated a USD 1M contract directly with a SE Asian government
- Following the initial approval, the SE Asian government repeatedly delayed signing the final purchase agreement without explanation

Solution

- The US company requested a discreet investigation
- BBA leveraged local relationships to discover government officials had delayed the purchase due to misunderstandings, including perceived personal slights, unfamiliarity with US policies, and expectations of personal kickbacks
- The US company used this information to address the misunderstandings directly with government officials

Outcome

- Government officials promptly signed the purchase order and paid the full USD 1M bill
- The SE Asian government ultimately placed three additional orders from the US company
